What is Direct Primary Care (DPC)?

Direct Primary Care (DPC) is a membership-based healthcare model that removes the complexity of traditional, insurance-based care.

Relationship focused and health history understood.

Instead of dealing with copays, deductibles, and long wait times, your employees receive **unlimited access to care** for a flat monthly fee — with no hidden costs.

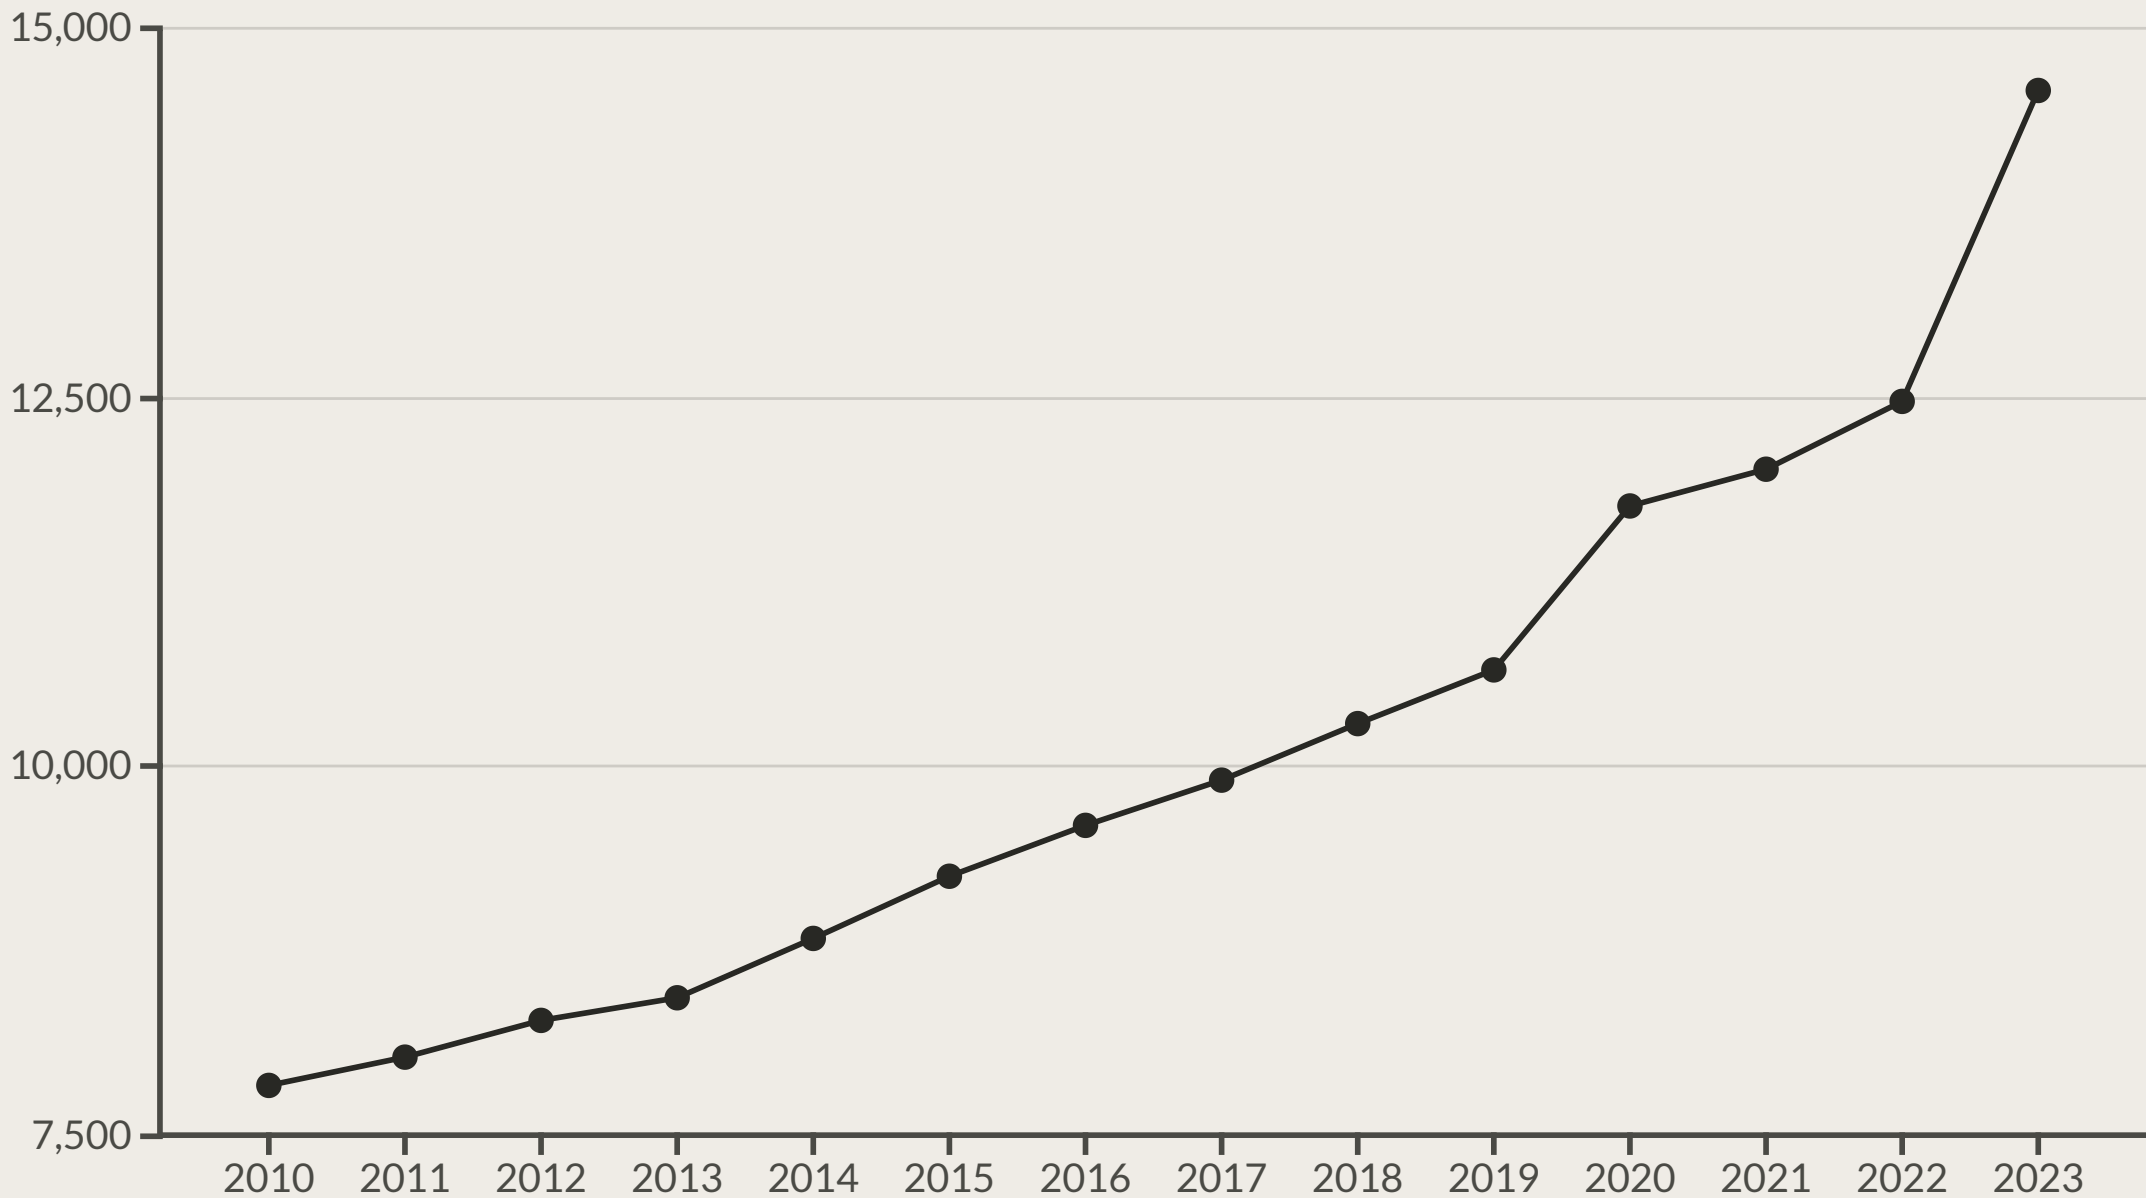

It's a more personal, affordable, and accessible way to manage health.

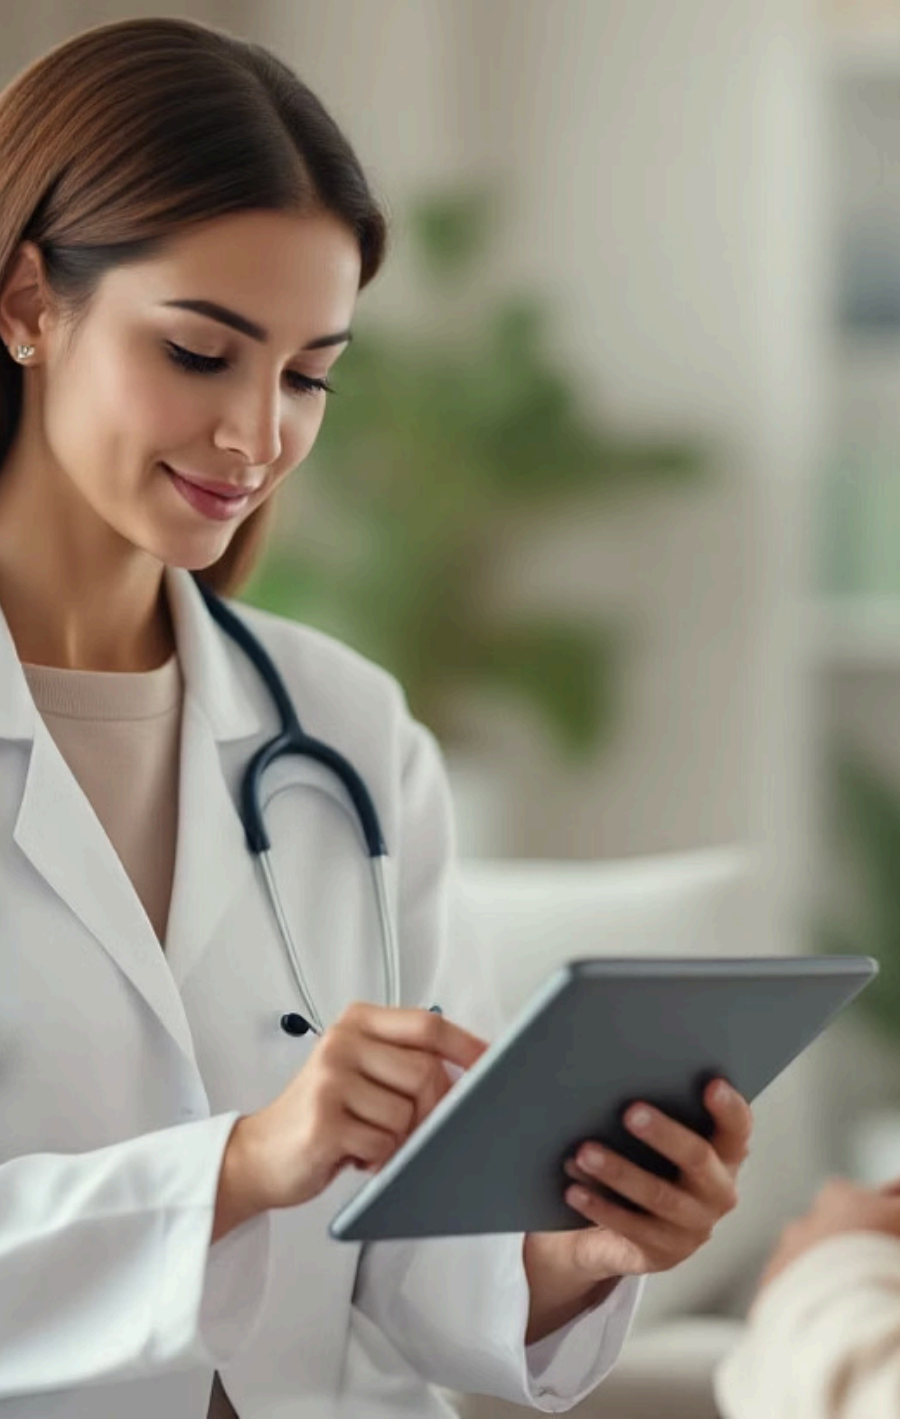

DPC vs. Traditional In-Network Physicians

Feature	Direct Primary Care (DPC)	In-Network Physicians
Appointments	Same or next-day (under 48hrs)	7-21+ day wait
Visit Time	No time limits	10-15 minutes typical
Copays	\$0	Usually \$20-\$50
Chronic Disease Management	Included	Often referred out

Rising Health Care Spending Per Capita in U.S. (2010-2023)

Why AEGIS is the Right Healthcare Partner

Your employees deserve better. We deliver:

24/7 Provider Access

Via phone, text, and telehealth

No Co-pays or Deductibles

Ever

Personalized wellness guidance

How DPC Helps Your Business

Lower Healthcare Spend

Reduce costly urgent care and ER visits

Improved Productivity

Same-day/next-day visits mean less time away from work

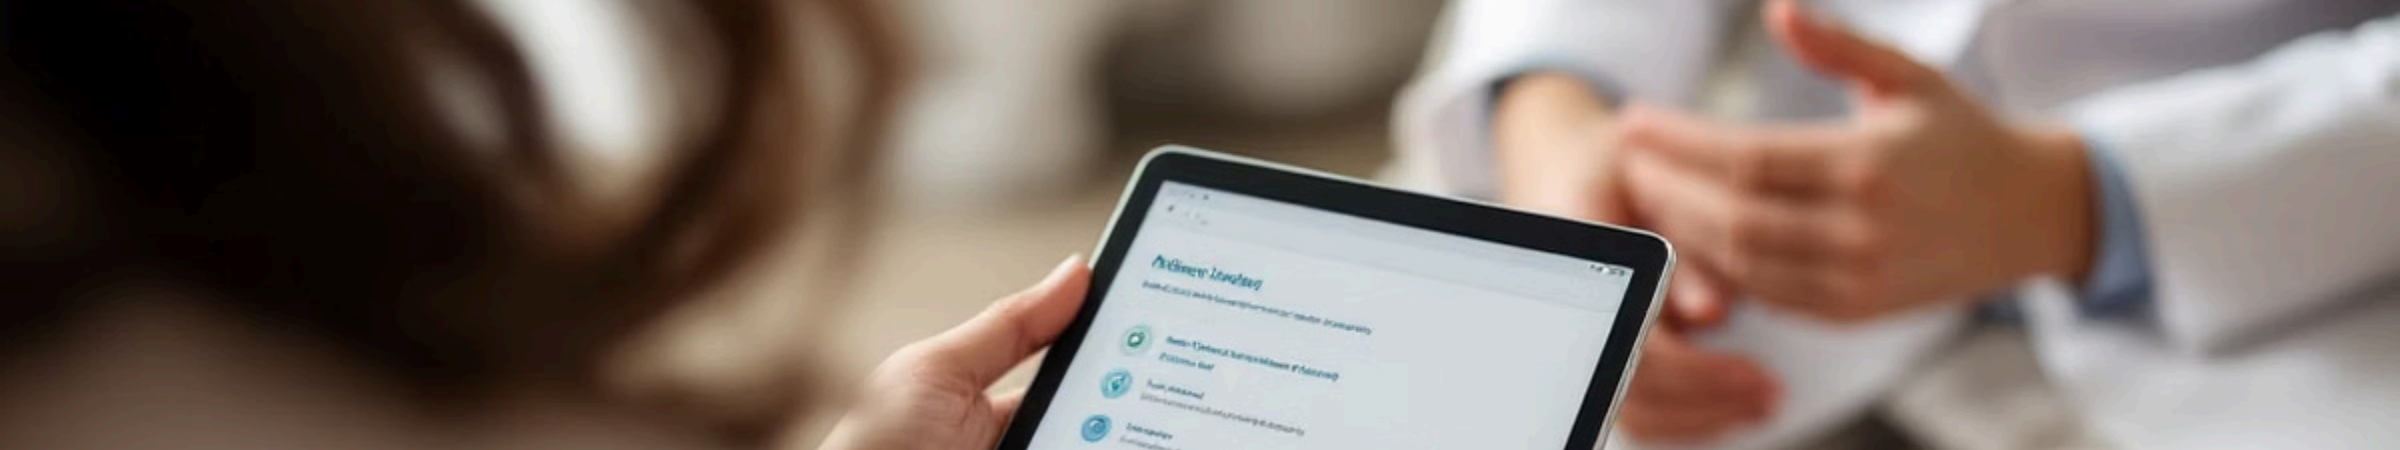

Simplified Administration

We handle enrollment, scheduling, and education

Recruiting Advantage

Attract and retain talent with high-quality, accessible care

Frequently Asked Questions

Can this be used with my insurance plan?

Yes. Aegis DPC is separate from insurance. You can still use insurance for catastrophic coverage or specialist visits.

What's the cost to employees?

This varies by employer setup. Some employers cover the full cost, others split it – but the total is always clear and fixed.

Is this only virtual?

No. We offer both in-person and virtual care – whatever works best for the patient.

Frequently Asked Questions Cont.

What if I need labs, imaging, or medication?

We provide access to **deeply discounted** lab tests, imaging, and prescriptions through wholesale vendors and partnerships.

What about after-hours or urgent needs?

Your employees can contact their physician 24/7 via text or phone for urgent concerns or care guidance.
